Education

Baselios Mathews II College of Engineering BTech In Computer Science - 7.20 CGPA

11/21 - 04/25

Projects

Bid X

- The proposed auction web portal is a dynamic platform designed to streamline online auctions with a special focus on the agricultural sector.
- It enables users to list and bid on a wide range of products, including crops, farming equipment, and livestock, catering specifically to the needs of the agricultural community.
- The portal offers a user-friendly bidding process, where auctions are automatically cancelled if only one bid is received, and sellers can finalize or cancel auctions with multiple bids.
